- This action adopts provisions that will ensure that race will not be used as the primary determining factor in housing the Department's inmate population. All inmate housing assignments shall be made on the basis of available information, individual case factors, and objective criteria, to implement an integrated housing plan. It is the intent of the Department to ensure that housing practices are made consistent with the safety, security, treatment, and rehabilitative needs of the inmate, as well as the safety and security of the public, staff, and institutions.
- The housing plan involves an interview with the inmate, a review of the inmate's central file, and a review of all available and relevant information. The housing plan will use all available information to determine an inmate's eligibility for integration and will assign inmates to the first available and appropriate bed based on their integration eligibility.
- Implementation of the integrated housing plan will occur over several phases. The first phase will occur in 2007, and will consist of the development of an integrated coding system that will be used to identify each inmate's eligibility to integrate. The actual implementation of integrated housing will commence in 2008 at designated facilities such as reception centers, and then be phased in statewide commencing in 2009, over a period of several years.
